

## **Workshop on “Building Resilience against Violent Extremism.”**

**Date: 21<sup>st</sup> May 2025**

### **Subject: Activity Report**

On May 21, 2025, the CDC and Business Administration Department at SUIIT, in collaboration with NACTA and City University Peshawar, organized a three-hour workshop focused on the role of critical thinking in countering violent extremism. Over 50 Class and Group Representatives from various departments actively participated in the session, which was honored by the presence of the Vice Chancellor of SUIIT as the Chief Guest. Prof. Dr. Rabia Ishrat from the Department of Management Sciences led the workshop as the resource person, delivering an engaging session that encouraged students to think critically, question harmful narratives, and promote peace within their communities. The event was well-received and marked a meaningful step toward empowering student leaders with the skills to think independently and constructively. Few are the glimpses of the said workshop below:
