Annexure-A

Creative House, 5th Floor, Phase-3 Chowk,
Main Jamrud Road Peshawar (KP) Pakistan
Phone & Fax +92-91-5841553-4,

September 25, 2024 *Ref.CEC/HO/HR/09-26/5600*

To Whom It May Concern

This is to certify that Creative Engineering Consultants, having its office at Creative House, Phase-3 Chowk, Main Jamrud Road Peshawar (KP) Pakistan, has reviewed and shown interest in the "Reverse Osmosis Water Purification plant", developed by **Engr. Abdul Hadi & Engr. Shahib Moeed**, from the Department of Mechanical Engineering, Sarhad University of Science & Information Technology (SUIT), Peshawar.

The proposed Reverse Osmosis Water Purification Plant has potential application in Khyber Pakhtunkhwa City Improvement Project (KPCIP) and addresses the requirement of our organization in relation to clean water supply to the urban societies.

Based on our assessment, we consider the proposed technology to have potential industrial demand and practical application. We are interested in further evaluation, testing, collaboration, adoption and commercialization of the technology, subject to the successful technical validation and mutually agreed terms and conditions.

Project funding: PKR 150,000 (Rupees One Hundred and Fifty Thousand Only).

This letter is issued as Proof of Demand/Industrial Interest for the purpose of documenting the potential industrial application and demand for the developed technology.

This certificate is issued upon his request for whatever purpose it may serve.

We extend our best wishes to him for his future endeavors.

For and on behalf of Creative Engineering Consultants, Peshawar.
