Message from the Governor, Khyber Pakhtunkhwa

Higher Education; a demanding but a highly rewarding field of education system, plays a pivotal role in fulfilling the quest for bringing pleasant change in the socio-economic fabric of the society and ensures better future both for the country and the people. In the given circumstances, achieving this cherished goal indeed demands constant efforts, sustained determination and resources on part of individuals, institutions and the society alike. In line with the desired targets one can witness an encouraging environment, enthusiastic approach, high spirit and a confident struggle at every level in the province.

It is indeed a pleasure to note that the Sarhad University of Science & Information Technology, Peshawar is engaged as an active partner along its sister institutions, working both in the public and private sectors in the ongoing struggle to achieve the target set forth for the cause of education. The initiative to introduce demand driven, result oriented and contemporary disciplines, besides continuing research and educational activities in the existing institutions and infrastructure development for further expansion of the campus provides a heartening and convincing reason to judge the pace, with which it is progressing, is impressive.

While writing these lines for the Prospectus 2024-25 of the University, I also take the advantage to congratulate the management, faculty and students especially the new entrants for successfully stepping into their new pursuits and wish more success to all of them.

Faisal Karim Kundi

Message from the President, Sarhad University

It is a matter of immense pleasure for me to record my message for prospectus 2024-25.

It is a unique imagination and a marvelous experience that a journey I started in the year 2001, is now unfolding its colors in many ways. The launching of Sarhad University with a humble start of programs in Computer Science, IT and Management Sciences from ab-initio was a gigantic task which I could not have accomplished alone. It was my team which worked with unmatched hard work and dedication as the resources were meager and the resolve to reach the students was unflinching.

It had been my life-long desire to reach and serve people from an area that direly needed my services and contributions in the higher education sector. The Khyber Pakhtunkhwa province suited my objective more than any other neglected areas of Pakistan due to its close proximity to my base-station and the energetic segment of students of the Province, who otherwise have all the potentials to be in the driving seat. I chose education as my preferred objective and the young generation as my prime target as no society in the civilized world could ever progress without educating upcoming generations.

Dear students, Sarhad University with state-of-the-art buildings housing spacious classrooms, scientific and research laboratories, a huge library with latest books, Seminar Hall, dedicated parking space along with sports facilities is now fully functional to offer academic programs in various disciplines. In the wake of latest developments we have put in place a robust security system backed by CCTV cameras with recording facilities through DVR system, walk through gates and metal detectors to maintain a secured environment at the premises. The testimony to our success can be judged from out-flow of our graduates who are currently serving in almost all the public departments at provincial and national level. Beside those many pursuing their higher studies at various International Universities. I would also like to extend my thanks to the students who opt to join Sarhad University to be in our fold for the coming 4-5 years with a pledge to work for their better education and settlement in their assignments.

M. Riaz Karim

Message from the Vice President, Sarhad University

I am happy to convey my message about Sarhad University which was established in the year 2001, with the sole objective of providing quality education at higher level according to the expectations of our youth. I would like to apprise you that today; our university is placed in highest category of HEC. We have worked round the clock over the last 23 years to achieve this level of excellence and proved ourselves in accordance with the expectations of all stakeholders. The University as of today is home to more than 6000 students in contemporary disciplines including Pharmacy, Nursing, Allied Health Sciences, Computer Sciences, Software Engineering, Management Sciences, Engineering, Art & Design, Humanities and Social Sciences. These programs are being supervised by more than 100 PhD, around 150 M.Phil/MS and MSc degree holders, having vast teaching and administrative experience.

Our teaching Departments are associated with the modern labs equipped with latest and up to date equipment required for the practical work of the students to gain hands on experience.

The Department of Pharmacy, Nursing and Allied Health Sciences are also linked with the major hospitals of Peshawar City for clinical rotation of the students to directly deal with the patients of their particular specialties.

SUIT believes in imparting quality education and for this purpose, we have established a full-fledged Quality Enhancement Cell to fine tune our programs with regular intervals. Our Quality Enhancement Cell is fully functional to supervise the quality of programs according to HEC's laid down criteria and there is a continuous progress in our academic programs to achieve this very goal.

It will be in place to write that Office of Research, Innovation and Commercialization (ORIC) has also been established. More so, bringing the university under one umbrella has provided us the opportunity to focus on research activities for which faculty members and students are provided with financial and material assistance. Seminars, Workshops, Curricular & Co-curricular activities are held regularly to groom our students. I assure all students of my fullest support to educate them in the best possible manner so that they could prove their metal in their respective fields after graduation from Sarhad University.

Azmat Ali

Message from the Vice Chancellor, Sarhad University

It is a privilege for me to be associated with such a progressive and rapidly developing University. During the last 22 years, Sarhad University has made landmark achievements in many areas. The Faculty size has increased manifold due to induction of a number of PhD and M.Phil Degree holders in the field of Engineering, Pharmacy, Nursing, Management Sciences, Computer Science, Arts, Education and certain health-related disciplines. Our focus on quality education has enabled the students to acquire relevant knowledge and to become true professionals. Academic activities like conferences, workshops, and seminars have not only created an environment conducive for research, but have also added to the experience of our faculty and students. Our graduates, equipped with the right blend of knowledge and skills are prepared to carve their niche in the corporate world and to play their due role in socio-economic development of the country. I attribute our success in all these areas to the faculty, management and students whose devotion, hard work, sincerity, and determination have earned us high reputation and due recognition.

Selecting a particular degree program for stepping into professional life is one of the most crucial decisions. Equally difficult is the choice of an institution of higher learning to pursue the selected degree program. For those who have reached this decision making stage, Sarhad University offers diverse fields at its Main Campus in Peshawar, sub campuses and the opportunity to learn online / distance education. May Allah Almighty bless our youth and guide them in making right decisions, and enable the University management to give its best to the students.

GROWTH IN FACULTY AT SARHAD UNIVERSITY

Launching of SUIT Islamabad Campus

Message from the President, SUIT

It is a matter of immense pleasure to share that in line with our vision, Sarhad University of Science & Information Technology, Peshawar is expanding its operations by establishing Islamabad Campus. It is my firm belief that due to its strong academic base, the city of Islamabad has a great potential for higher education. The youth of Islamabad has an immense desire to improve their qualification through

Higher Education Institutions of repute. To this end, SUIT Islamabad Campus aims to prepare them to earn their livelihood with honour and dignity as well as to extend a helping hand to their parents, and siblings to lead respectable lives.

For a student, selecting a particular degree program for stepping into professional life is one of the most crucial decisions. Equally difficult is the choice of an institution of higher learning to pursue the selected degree program. For those who have reached this decision making stage, Sarhad University offers diverse fields of education at its Islamabad Campus. Additionally, Islamabad Campus of Sarhad University with state of the art buildings housing spacious classrooms, scientific and research laboratories, a huge library with latest books, Seminar Hall, dedicated parking space along with sports facilities is to cater for the academic needs of the youth of Islamabad regions.

During the last two decades, Sarhad University has acclaimed a reputable name in the educational circles of Pakistan and abroad. I am happy that a University having Charter from a comparatively less developed province of Pakistan, i.e. Khyber Pakhtunkhwa has achieved so many laurels to claim excellent academic standing among its counterparts.

I am confident that the management and faculty of the Islamabad Campus will work with sincerity, dedication, zeal and zest and produce graduates who will take upon themselves to take the country out of the crises that we face today.

Muhammad Riaz Karim

Message from the Vice Chancellor

I am pleased to record my message on the establishment of Islamabad Campus of Sarhad University of Science & Information Technology, Peshawar and offering admissions therein from Fall-2024 Session in different programs. I must say that Sarhad University has an outstanding national & international reputation, imparting quality education to a larger number of students in various fields of

learning, earning HEC's highest rating of excellence for Engineering, Pharmacy, Allied Health Sciences, Nursing, Computing, Management and Social Sciences through its academic excellence. Establishment of Islamabad Campus with the approval of Higher Education Commission of Pakistan, is a landmark initiative which will not only cater for the educational needs of the youth of Islamabad Capital Territory but also for the majority of the adjoining areas. Since its inception in 2001, the University has passed through numerous ups and downs, but with the grace of Almighty ALLAH and the untiring efforts of the management and faculty, we successfully overcame the obstacles and hurdles in our way and kept the University on the path of progress and development. Today our graduates are effectively serving various Multi-National Companies and Organizations at Provincial and National levels in different capacities, whereas many joined foreign universities for higher studies. The University has always strived to provide relevant and purposeful education aimed at preparing its students to confront challenges in this competitive world. Sarhad University is not just addressing the issues of professional environment such as purpose-built campus, air-conditioned classrooms, and well equipped laboratories but, more importantly, it is concentrating on the most critical issues like faculty development, curricula tailored to latest innovations and present-day demands, quality enhancement, effective teaching & evaluation, community engagement and character building. I assure that the Islamabad Campus of Sarhad University will try its level best to disseminate quality education at the doorsteps of the prospective students of ICT and the adjoining areas. In the years to come, I foresee Sarhad University among the top ranking Universities of Pakistan and wish a glaring future to it.

Prof. Dr. Salim-ur-Rehman

Sarhad University of Science & IT, Islamabad Campus

The University achieved yet another milestone by establishing the Islamabad Campus with the approval of HEC, Islamabad granted vide letter No. 15(16)/A&A/Acc/HEC-2023/553, dated 28th August, 2023.

The Islamabad Campus, located at a posh area of Rawat, Islamabad is about to start its academic journey from Fall-2023 session.

Department of Civil Engineering

Civil Engineering is known as an art of directing the great sources of power in nature for the use and convenience of human beings. Civil Engineering includes the research, development, planning, design, construction and maintenance associated with urban development, water supply, structure, energy generation and transmission, water treatment and disposal, and transportation systems. With the rapid increase in urbanization and industrialization, Civil Engineering has developed as a vibrant and challenging profession. Carving out meaningful careers in the arenas of building and managing infrastructures and sustaining environmental resources, civil engineers have to adopt the pace of technological change that could be an exciting and potentially rewarding challenge.

Vision

To establish a platform for producing Civil Engineers, imbued with leadership qualities and moral character, for the professional growth and sustainable development.

Mission

To provide high quality Civil Engineering education that is essential for undertaking professional challenges, enhancing, teamwork talents communication and inter-personal skills, and for providing a socially acceptable workable solutions through continuous life-long learning processes.

Eligibility:

- Candidates who have passed intermediate (Pre-Engineering/ *Pre-Medical/ *Computer Science) from a recognized BISE in Pakistan with at least 60% unadjusted marks.
*The candidates with an intermediate Pre-Medical or Computer Science background have to study an additional course of remedial Mathematics and Chemistry, respectively, during the initial 1-2 Semesters, in accordance with PEC guidelines.
- Candidates possessing B-Tech (Hons) in the relevant field are also eligible for admission against the 2% reserved seats on open merit
- Candidates possessing 3-years Post-Matric Diploma of Associate Engineer in the relevant technology with at least 60% unadjusted marks.
- All candidates are required to pass an entry test conducted by NTS / ETEA or any registered testing agency or University with at least 33% cumulative score.

Foreign candidates need to pass entry/apptitude test conducted by the University. For further details, see clause 4 in Admission Process.

Program Educational Objectives (PEOs) :

The following PEOs have been designed to address the requirement and expectations of various stakeholders, in accordance to the vision and mission of the Department of Civil Engineering.

PEO1 (Engineering Practice): Graduates will be knowledgeable and competent, and will play an effective role to meet the industrial requirements by providing best comprehensive solutions.

PEO2 (Professional Growth): Graduates will enhance learning through professional higher education and continued development of technical expertise.

PEO3 (Societal Service): Graduates will serve the society with professional obligations, displaying high moral and ethical standards.

PEO4 (Teamwork Abilities): Graduates will possess effective communication and inter-personal skills, along with teamwork abilities.

Outcome Based Education (OBE) System :

Outcome-based education (OBE) is an educational theory that bases each part of an educational system around the goals. By the end of the educational period, each student should have achieved the desired goals. The Department of Civil Engineering at SUIT has adopted Outcome Based Education (OBE) and Outcome Based Assessment (OBA) for its Bachelor of Science in Civil Engineering Degree Program since 2015, as recommended by Engineering Accreditation Board (EAB) of Pakistan Engineering Council, to satisfy the requirements of Washington Accord 2013. Currently, the framework of Civil Engineering Degree program at SUIT is set in accordance with the PEC Accreditation Manual 2019.

Program Learning Outcomes (PLOs)

- PLO-01 Engineering Knowledge:** Apply knowledge of mathematics, natural science, engineering fundamentals and engineering specialization to the solution of complex engineering problems. (WK-1-WK-4)
- PLO-02 Problem Analysis:** Identify, formulate, conduct research literature and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences. (WK-1-WK-4)
- PLO-03 Design/Development of Solution:** An ability to design solutions for complex engineering problems and design systems, components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations. (WK-5)
- PLO-04 Investigation:** Conduct investigation of complex engineering problems using research-based knowledge and research methods, including design of experiments, analysis, and interpretation of data, and synthesis of information to provide valid conclusions. (WK-8)

- PLO-05 Tool Usage:** Create, select and apply appropriate techniques, resources and modern engineering and IT tools, including prediction and modeling, to complex Engineering problems, with an understanding of the limitations. (WK-2 and WK-6)
- PLO-06 The Engineer and the World:** Analyze and evaluate sustainable development impacts to society, the economy, sustainability, health and safety, legal frameworks, and the environment while solving complex engineering problems. (WK-1, WK-5, and WK-7)
- PLO-07 Ethics:** Apply ethical principles and commit to professional ethics and norms of engineering practice and adhere to relevant National & International laws. Demonstrate an understanding of the need for diversity and inclusion. (WK-9)
- PLO-08 Individual and Collaborative Team Work:** Function effectively as an individual, and as a members or leader in diverse and inclusive teams and in multi-disciplinary, face-to-face, remote and distributed settings.
- PLO-09 Communication:** Communicate effectively and inclusively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, and make effective presentations, taking into account cultural, language, and learning differences. (WK-1 and WK-9)
- PLO-10 Project Management and Finance:** Demonstrate knowledge and understanding of engineering management principles and economic decision-making and apply these to one's own work, as a member & leader in a team, to manage projects in multidisciplinary environments. (WK-2 and WK-5)
- PLO-11 Life-Long Learning:** Recognize the need for, and have the preparation and ability for
- i) Independent and life-long learning
 - ii) adaptability to new and emerging technologies
 - iii) critical thinking in the broadest context of technological change. (WK-8 and WK-9)

Department of Electrical Engineering

Keeping in view the importance and realizing the impact of the different branches of Electrical Engineering on the socio-economic growth of our country, Sarhad University decided to launch Electrical Engineering Degree Program. The Degree program is so designed that it provides an opportunity to the enrolled students to select and opt for studying the courses either in Power Engineering Group, Telecommunication Engineering Group or Electronics Engineering Group, depending upon the aptitude of the students which they may develop during their initial courses of the study, and / or most importantly, based on the market demand for a particular group of Electrical Engineering. During the first two years (4 Semesters) of the four year Degree program (eight Semesters), courses are offered which cover the common fundamentals of all the major fields in Electrical Engineering. However, in the next two years, emphasis is laid on specialized option with a view to enhance career prospects. For the last two years, courses are carefully designed in terms of Power, Electronics and Communication Groups of Electrical Engineering enabling students for better understanding of their areas of interest. The Bachelor Program in Electrical Engineering is accredited by the Pakistan Engineering Council.

Mission

To produce graduate equipped with state-of-the-art education, in-depth knowledge and relevant skills to foster research and development activities, expose them to the complete cycle of research process and emphasize on the precept of how innovation blended with creativity can result in viable and meaningful research outcomes

Program Offered: Bachelor of Science in Electrical Engineering

Faculty Members, Department of Electrical Engineering

Engr. Dr. M. Abid Saeed	Head of Department	Ph.D Electrical Engineering (Control System), Shanghai Jiao Tong University, China
Engr. Dr. Obaid Ur Rehman	Professor	Ph.D Electrical Engineering, Zhejiang University, China
Dr. Azhar Ali	Associate Professor	Ph.D Mathematics, Islamia College University, Peshawar
Engr. Muhammad Iqbal Khan	Coordinator	MS Electrical Engineering, Sarhad University, Peshawar
Engr. Shahid Alam	Assistant Professor	MS Electrical Engineering, UET, Peshawar
Engr. Saleh Lutfullah Kakakhel	Assistant Professor	MS Electrical Engineering, Sarhad University, Peshawar
Engr. Mohsin Iqbal	Assistant Professor	MS Electrical Engineering, Sarhad University, Peshawar
Engr. Noman Muslim	Lecturer	MS Electrical Engineering, Sarhad University, Peshawar
Engr. Iftikhar Khan	Lecturer	MS Electrical Engineering, CECOS University, Peshawar
Engr. Syed Dildar Hussain Shah	Lecturer	MS Electrical Engineering, Sarhad University, Peshawar
Engr. Syed Noman Shah	Lab Engineer	BSc Electrical Engineering, City University, Peshawar

Bachelor of Science in Electrical Engineering

Program Code	240
Number of Courses	40
Credit Hours	134

Minimum Duration	8 Semesters, 4 Years
Maximum Duration	14 Semesters, 7 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility:

- Candidates who have passed intermediate (Pre-Engineering/ *Pre-Medical/ *Computer Science) from a recognized BISE in Pakistan with at least 60% unadjusted marks.
*The candidates with an intermediate Pre-Medical or Computer Science background have to study an additional course of remedial Mathematics and Chemistry, respectively, during the initial 1-2 Semesters, in accordance with PEC guidelines.
- Candidates possessing B-Tech (Hons) in the relevant field are also eligible for admission against the 2% reserved seats on open merit
- Candidates possessing 3-years Post-Matric Diploma of Associate Engineer in the relevant technology with at least 60% unadjusted marks.
- All candidates are required to pass an entry test conducted by NTS / ETEA or any registered testing agency or University with at least 33% cumulative score.

Foreign candidates need to pass entry/apptitude test conducted by the University. For further details, see clause 4 in Admission Process.

Program Educational Objectives (PEOs) :

The Department of Electrical Engineering at Sarhad University Peshawar has adopted the following three program educational objectives (PEOs). All of the PEOs have been devised keeping in view the vision and mission of the university and the professional requirements in the domain of Electrical Engineering. PEO's are aligned with United Nation SDG's.

- PEO-1: Technical Proficiency and Problem Solving:** Graduates will possess the knowledge to investigate, analyze, and solve to provide innovative solutions for complex engineering problems.
- PEO-2: Leadership and Societal Impact:** Graduates will be equipped to serve and lead for the socio-economic and environmental development of the country.
- PEO-3: Lifelong Learning and Professional Development:** Graduates will demonstrate a lifelong learning attitude, entrepreneurial and soft skills with a strong commitment to ethical values.

Outcome Based Education (OBE) System :

OBE is an approach of curriculum design and teaching that focuses on what students should be able to do (attain) at the end of course/ program. The Undergraduate curriculum at Department of Electrical Engineering, Sarhad University was transformed into adopting OBE from Spring 2018 in

accordance with requirements from Pakistan Engineering Council Accreditation Manual 2019 and to satisfy the requirements of Washington Accord 2013. The framework for OBE in the Electrical Engineering Department and the process control mechanism consists of four different phases i.e. design, assess, analyze and review. For each of the phases Program Educational Objectives (PEOs), Program Learning Outcomes (PLOs) and Course Learning Outcomes (CLOs), are defined.

Program Learning Outcomes (PLOs)

- PLO-01 Engineering Knowledge:** Apply knowledge of mathematics, natural science, engineering fundamentals and engineering specialization to the solution of complex engineering problems. (WK-1-WK-4)
- PLO-02 Problem Analysis:** Identify, formulate, conduct research literature and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences. (WK-1-WK-4)
- PLO-03 Design/Development of Solution:** An ability to design solutions for complex engineering problems and design systems, components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations. (WK-5)
- PLO-04 Investigation:** Conduct investigation of complex engineering problems using research-based knowledge and research methods, including design of experiments, analysis, and interpretation of data, and synthesis of information to provide valid conclusions. (WK-8)
- PLO-05 Tool Usage:** Create, select and apply appropriate techniques, resources and modern engineering and IT tools, including prediction and modeling, to complex Engineering problems, with an understanding of the limitations. (WK-2 and WK-6)
- PLO-06 The Engineer and the World:** Analyze and evaluate sustainable development impacts to society, the economy, sustainability, health and safety, legal frameworks, and the environment while solving complex engineering problems. (WK-1, WK-5, and WK-7)
- PLO-07 Ethics:** Apply ethical principles and commit to professional ethics and norms of engineering practice and adhere to relevant National & International laws. Demonstrate an understanding of the need for diversity and inclusion. (WK-9)
- PLO-08 Individual and Collaborative Team Work:** Function effectively as an individual, and as a members or leader in diverse and inclusive teams and in multidisciplinary, face-to-face, remote and distributed settings.
- PLO-09 Communication:** Communicate effectively and inclusively on complex engineering activities with the engineering community and with society at

large, such as being able to comprehend and write effective reports and design documentation, and make effective presentations, taking into account cultural, language, and learning differences. (WK-1 and WK-9)

- PLO-10 Project Management and Finance:** Demonstrate knowledge and understanding of engineering management principles and economic decision-making and apply these to one's own work, as a member & leader in a team, to manage projects in multidisciplinary environments. (WK-2 and WK-5)

- PLO-11 Life-Long Learning:** Recognize the need for, and have the preparation and ability for
- i) independent and life-long learning
 - ii) adaptability to new and emerging technologies
 - iii) critical thinking in the broadest context of technological change. (WK-8 and WK-9)

Department of Mechanical Engineering

Mechanical engineering is one of the oldest and broadest of all engineering disciplines. Mechanical engineers design, analyze, and manufacture new products and technologies in order to address society's needs. Graduates of this program are employed by government agencies, multinational corporations, consulting firms, and universities. They can work in the areas of research, design, manufacturing, sales, quality assurance, and management.

Since launching the program in the year 2008, Sarhad University has developed the required facilities related to faculty, classrooms, library and laboratories, in accordance with the guidelines of the Pakistan Engineering Council.

It is possible for graduates of this program to specialize in the areas of mechanical engineering design, thermo-fluid systems, energy systems, air conditioning and refrigeration, manufacturing engineering, engineering management, mechatronics, building services, and micro and nano technologies.

Vision

To nurture academic and economic vitality through teaching, research, and outreach in the field of Mechanical Engineering in order to improve the quality of life.

Mission

To provide the students a high quality education in Mechanical Engineering and Allied disciplines to maintain a recognition through service to the National and Interactional community.

Department of Technologies

Technology can be a powerful tool for transforming learning. It can help affirm and advance relationships between educators and students, reinvent our approaches to learning and collaboration, shrink long-standing equity and accessibility gaps, and adapt learning experiences to meet the needs of all learners. The Department of Technologies focuses on students to prepare them as an efficient engineering technologist and to compose him/her professionally trained in certain aspects of development and implementation of a respective area of technology in order to boost industrialization, economic growth of society, and empower all students to be successful citizens of Pakistan.

Department of Technologies since its establishment is playing a vital role by providing outstanding graduates to the society and is acting as incubators of exploration and invention. The syllabus is continually under development and review as per HEC and NTC guidelines. We are collaborators in learning, seeking new knowledge and constantly acquiring new skills alongside our students. We have set a vision for creating learning experiences that provide the right tools and supports for all learners to thrive. We have state-of-the-art laboratories, library and other allied facilities where students can enhance their practical skills. Also, industrial/field visits are arranged on regular basis to boost and prepare the students for market.

Vision

Achieving excellence in Engineering Technology programs boosting professionalism and sustainable development.

Mission

To produce graduates capable of applying their technical knowledge and skills to serve the society with professionalism and ethical norms.

Programs Offered:

Bachelor of Science in Civil Engineering Technology

Bachelor of Science in Electrical Engineering Technology

Bachelor of Science in Architectural Engineering Technology

Bachelor of Science in Information Security Engineering Technology

Bachelor of Science in Mechanical Engineering Technology

Faculty Members, Department of Technologies

Engr. Muhammad Faisal Khan	Director	MSc Electrical Engineering (Power), UET Peshawar
Mr. Hasnain Ali	Coordinator	MS Engineering Management, Sarhad University, Peshawar
Engr. Obaid Ur Rehman	Coordinator	MS Civil Engineering (Structural Engg), CECOS University, Peshawar
Engr. Syed Zia Ud Din	Assistant Professor	MS Electrical Engineering, COMSATS, Islamabad
Engr. Fayaz Ahmad	Assistant Professor	MS Electrical Engineering (Power), Sarhad University, Peshawar
Mr. Zabih Ullah	Lecturer	M-Tech Civil (Structure), CECOS University, Peshawar
Mr. Sajjad Hussain	Lecturer	MS Civil Engineering Technology, Sarhad University, Peshawar
Engr. Zahid Hussain	Assistant Prof. (on leave)	MS Engineering Management, Sarhad University, Peshawar

Bachelor of Science in Civil Engineering Technology

Program Code	149
Number of Courses	42 + Project + SIT
Credit Hours	133

Minimum Duration	8 Semesters, 4 Years
Maximum Duration	16 Semesters, 8 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility:

3 Years Diploma of Associate Engineers from Technical Board in the relevant technology or F.Sc. Pre-Engineering / Pre Medical from any Intermediate Board with at-least 50% marks or equivalent qualification.

Pre Medical Students must pass Deficiency courses of Mathematics of 6 Credit Hours with in the first year of their regular studies.

Candidates need to pass an aptitude Test / Interview conducted by the university.

Program Mission:

To impart technical education and training for producing Civil Engineering Technologist capable of serving the society for sustainable development and professional growth.

Program Educational Objectives (PEOs) :

- PEO-01: Specialized Knowledge:** The graduates will have the knowledge, skills, and abilities to solve issues with modern technologies in the field of Civil Engineering Technology.
- PEO-02: Industrial Technology:** The graduates will have an effective communication and management abilities in order to meet industry's technology needs.
- PEO-03: Responsible Technologist:** The graduates will exhibit professional integrity and commitment to social and ethical responsibilities.
- PEO-04: Professional Growth:** The graduates will demonstrate professionalism and to nurture entrepreneurial and continuous professional development abilities.

CT 411	Supervised Industrial Training (Compulsory)	0-16

Program Learning Outcomes:

- PLO-01: Engineering Technology Knowledge:** An ability to apply knowledge of mathematics, natural science, Engineering Technology fundamentals and Engineering Technology specialization to defined and applied Engineering Technology procedures, processes, systems or methodologies.
- PLO-02: Problem Analysis:** An ability to identify, formulate, research literature and analyses broadly-defined Engineering Technology problems reaching substantiated conclusions using analytical tools appropriate to the discipline or area of specialization.

Program Learning Outcomes (PLOs)

- PLO-03: Design/Development of Solution:** An ability to design solutions for broadly-defined Engineering Technology problems and contribute to the design of systems, components or processes to meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations.
- PLO-04: Investigation:** An ability to conduct investigations of broadly-defined problems; locate, search and select relevant data from codes, data bases and literature, design and conduct experiments to provide valid conclusions.
- PLO-05: Modern Tool Usage:** An ability to Select and apply appropriate techniques, resources, and modern technology and IT tools, including prediction and modeling, to broadly-defined Engineering Technology problems, with an understanding of the limitations.
- PLO-06: The Engineering Technologist and Society:** An ability to demonstrate understanding of the societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to Engineering Technology practice and solutions to broadly defined Engineering Technology problems.
- PLO-07: Environment and Sustainability:** An ability to understand and evaluate the sustainability and impact of Engineering Technology work in the solution of broadly defined Engineering Technology problems in societal and environmental contexts.
- PLO-08: Ethics:** Understand and commit to professional ethics and responsibilities and norms of Engineering Technology practice.
- PLO-09: Individual and Team Work:** An ability to Function effectively as an individual, and as a member or leader in diverse teams.
- PLO-10: Communication:** An ability to communicate effectively on broadly defined Engineering Technology activities with the Engineering Technologist community and with society at large, by being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- PLO-11: Project Management:** An ability to demonstrate knowledge and understanding of Engineering Technology management principles and apply these to one's own work, as a member or leader in a team and to manage projects in multidisciplinary environments.
- PLO-12: Life-Long Learning:** An ability to recognize the need for, and have the ability to engage in independent and life-long learning in specialist Engineering Technologies.

Outcome Based Education (OBE) System

OBE is an educational process that focuses on what students can do or the qualities they should develop after they are taught. OBE involves the restructuring of curriculum, assessment and reporting practices in education to reflect the achievement of high order learning and mastery rather than accumulation of course credits. It requires that the students demonstrate that they have learnt the required skills and contents.

The department has established an OBE committee to successfully implement OBE system. The committee is responsible for developing the CLOs (Course Learning Outcomes) for the courses and rubrics for Laboratories and Final Year Projects (FYP). Several training sessions and workshops were conducted to train the faculty members and lab engineers to be able to adopt OBE system.

Minimum CGPA Required To Earn Degree	2.00

Eligibility:

3 Years Diploma of Associate Engineers from Technical Board in the relevant technology or F.Sc Pre-Engineering / Pre Medical from any Intermediate Board with at-least 50% marks or equivalent qualification.

Pre Medical Students must pass Deficiency courses of Mathematics of 6 Credit Hours with in the first year of their regular studies.

Candidates need to pass an aptitude Test / Interview conducted by the university.

Program Mission:

To impart technical education and training for producing Information Security Engineering Technologist capable of serving the society for sustainable development and professional growth.

Program Educational Objectives (PEOs) :

- PEO-01: The graduates will have the knowledge, skills, and abilities to solve issues with modern technologies in the field of Information Security Engineering Technology.
- PEO-02: The graduates will have an effective communication and management abilities in order to meet industry's technology needs.
- PEO-03: The graduates will exhibit professional integrity and commitment to social and ethical responsibilities.
- PEO-04: The graduates will demonstrate professionalism and to nurture entrepreneurial and continuous professional development abilities.

Program Learning Outcomes:

- PLO-01: Engineering Technology Knowledge:** An ability to apply knowledge of mathematics, natural science, Engineering Technology fundamentals and Engineering Technology specialization to defined and applied Engineering Technology procedures, processes, systems or methodologies.
- PLO-02: Problem Analysis:** An ability to identify, formulate, research literature and analyses broadly-defined Engineering Technology problems reaching substantiated conclusions using analytical tools appropriate to the discipline or area of specialization.

Program Learning Outcomes (PLOs)

- PLO-03: Design/Development of Solution:** An ability to design solutions for broadly-defined Engineering Technology problems and contribute to the design of systems, components or processes to meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations.
- PLO-04: Investigation:** An ability to conduct investigations of broadly-defined problems; locate, search and select relevant data from codes, data bases and literature, design and conduct experiments to provide valid conclusions.
- PLO-05: Modern Tool Usage:** An ability to Select and apply appropriate techniques, resources, and modern technology and IT tools, including prediction and modeling, to broadly-defined Engineering Technology problems, with an understanding of the limitations.
- PLO-06: The Engineering Technologist and Society:** An ability to demonstrate understanding of the societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to Engineering Technology practice and solutions to broadly defined Engineering Technology problems.
- PLO-07: Environment and Sustainability:** An ability to understand and evaluate the sustainability and impact of Engineering Technology work in the solution of broadly defined Engineering Technology problems in societal and environmental contexts.
- PLO-08: Ethics:** Understand and commit to professional ethics and responsibilities and norms of Engineering Technology practice.
- PLO-09: Individual and Team Work:** An ability to Function effectively as an individual, and as a member or leader in diverse teams.
- PLO-10: Communication:** An ability to communicate effectively on broadly defined Engineering Technology activities with the Engineering Technologist community and with society at large, by being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- PLO-11: Project Management:** An ability to demonstrate knowledge and understanding of Engineering Technology management principles and apply these to one's own work, as a member or leader in a team and to manage projects in multidisciplinary environments.
- PLO-12: Life-Long Learning:** An ability to recognize the need for, and have the ability to engage in independent and life-long learning in specialist Engineering Technologies.

Outcome Based Education (OBE) System

OBE is an educational process that focuses on what students can do or the qualities they should develop after they are taught. OBE involves the restructuring of curriculum, assessment and reporting practices in education to reflect the achievement of high order learning and mastery rather than accumulation of course credits. It requires that the students demonstrate that they have learnt the required skills and contents.

The department has established an OBE committee to successfully implement OBE system. The committee is responsible for developing the CLOs (Course Learning Outcomes) for the courses and rubrics for Laboratories and Final Year Projects (FYP). Several training sessions and workshops were conducted to train the faculty members and lab engineers to be able to adopt OBE system.

Department of Pharmacy

The Department of Pharmacy, Faculty of Life Sciences, Sarhad University acknowledges pharmaceutical care as an evolving mode of pharmacy practice in which the pharmacist in consultation with other health professionals, takes an active role on behalf of patients in making appropriate drug choices, by effecting distribution of medications to patients, and by assuming direct responsibilities to empower patients to achieve the desired outcomes of drugs and related therapy.

Pharm-D program of the Department provides educational preparedness, so as to enable a student to collaborate with other health professionals and to share responsibility for outcomes of drug and related therapy. Pharm-D program promotes the knowledge, skills, abilities, attitudes and values necessary for the provision of pharmaceutical care for general practice of pharmacy in any setting. The Department of Pharmacy also assures an understanding of pharmaceutical care by its students early in the professional program in pharmacy. The philosophy of practice as well as the necessary professional attitudes, ethics, and behaviors are evolved during the course of study. Moreover, Pharm-D program ensures the provision of a positive outlook for all aspects of pharmacy practice. In long and short, the Pharm-D program is based upon scope, depth and proficiency of knowledge, skills, and judgment acquired. The curriculum of Pharm-D adopted by our Department is in-line with the curriculum proposed by Pharmacy Council of Pakistan and approved by HEC, which provides the students with enhanced core of professional knowledge and skills through enrichment of the Biomedical Sciences, Pharmaceutical Sciences, Physical Sciences, and Clinical Sciences through practice and experience. The curriculum prepares students to be practitioners with maturity in clinical, hospital, community, and industrial practice of pharmacy.

Vision

To impart Research-oriented Pharmacy Education in the country with visionary abilities.

Mission

The mission of the Department is to prepare Pharmacy graduates whose scientific knowledge and skills enable them to work with the pace to ensure the quality in the design, manufacture, distribution, safe and effective use of pharmaceuticals in the society and clinical setting.

(Doctor of Pharmacy)

Program Code	081
Number of Courses	94
Credit Hours	198

Minimum Duration	10 Semesters, 5 Years
Maximum Duration	20 Semesters, 10 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility:

F.Sc (Pre-Medical) or A-Level with Equivalency Certificate from IBCC Islamabad with at least 60% Marks or an equivalent certificate from a recognized institution are eligible to apply.

Candidates need to pass an entry test and an aptitude interview conducted by the University.

Program Objectives:

The Pharm-D Program caters increasing needs of pharmaceutical care, drug delivery systems, drug distribution, storage, hospital pharmacy, community pharmacy, clinical pharmacy, drug information systems, and pharmaceutical industries in areas like productions, quality control, quality assurance, validation, research and development, product management, training, warehouse management, logistic and drug registration systems not only in Pakistan but in Middle East, Europe, Canada, and USA.

Program Outcomes :

After completion of the program, students will be able to;

- Contribute and update graduates regarding the advancements in pharmaceutical science and capable of catering the needs of national and international health organizations.
- Apply knowledge gained in the department to contribute in national or international organizations.
- Demonstrate efficient oral and written communication skills.
- Achieve problem solving and decision making skills.

Sarhad Institute of Allied Health Sciences

In the present health care system, the health service revolves around the doctors, nurses, and health technicians. The technicians are diploma holders having very limited skills and knowledge and for below requirements to influence the health care delivery effectively. The need was felt by the authorities concerned that a cadre of professionals be produced having enhanced knowledge, skills and behaviors that should be able to add to health care delivery systems effectively and improve the services provisions in the country generally and in the province of Khyber Pukhtunkhwa specially.

The idea was conceived to have an institute producing technologist to meet the requirements. As a result, the Sarhad Institute of Allied Health Sciences (SIAHS) was established in January 2021 as constituent institute of Sarhad university of Science and Information Technology, to meet the perceived idea and offered BS Programs having 8 semesters (4 years) in Health, Dental, Radiology, Surgical, Anesthesia, and Nutrition Technologies. In Fall-2022, BS Programs of Optometry and Cardiology Technology were offered. In Fall 2024 Enrolment in BS Emergency Care Technology will be offered

The institute has special emphasize on character building, and awareness on medical ethics so that a cadre of empathetic professionals be produced and could be able to adopt ethical approaches in the health care positions.

Vision

To produce qualified Health Professionals to deliver at national and international level.

Mission

Producing qualified Health Professional in their respective disciplines and enable them to serve the ailing humanity by applying modern teaching/ learning strategies to improve the health care system of the country in General and Khyber Pakhtunkhwa in Particular.

Bachelor of Science in Cardiology Technology

Program Code	223
Number of Courses	44 + Seminar + Project
Credit Hours	127

Minimum Duration	8 Semesters, 4 Years
Maximum Duration	16 Semesters, 8 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility:

- Candidates with F.Sc (Pre-Medical) or A-Levels with equivalency certificate from IBCC Islamabad with at least 45% marks are eligible to apply.
- Candidates with Diploma in relevant field with at least 45% marks in annual system or 2.00 CGPA on the scale of 4.00 in semester system duly registered by Khyber Pakhtunkhwa Medical Faculty with equivalency certificate from IBCC Islamabad are eligible to apply.
- Candidates will have to appear in an entry test to be conducted by any registered Testing Agency or University.
- Candidates will appear in an interview to be conducted by the University.

Program Objectives:

- To develop a strong foundational knowledge in human anatomy, physiology, biochemistry, pathology and cardio vascular system specifically related to Cardiology Technology.
- To equip the students with practical skills in the use of equipment specific to cardiology, such as ECG, echocardiography, ETT, holter monitoring, electro physiology and catheterization laboratories.
- To promote critical thinking and problem-solving abilities through case studies, simulators and clinical rotations in diverse healthcare settings.
- To enhance students' understanding of professional and ethical standards in cardiology technology. Emphasizing patient safety, quality assurance and effective communication within the healthcare team.
- To prepare graduates for leadership roles and continuous professional development in the field of cardiology technology, including participation in research, education and advocacy.

Program Outcomes :

- Graduates will demonstrate a comprehensive understanding of cardiovascular anatomy, physiology and pathology relevant to cardiology practice.
- Graduates will exhibit proficiency in operating and troubleshooting cardiology equipment and techniques, ensuring optimal patient care.
- Graduates will apply evidence-based practices and critical thinking skills to effectively manage cardiology scenarios and respond to clinical challenges.
- Graduates will adhere to the highest ethical standards demonstrating professionalism, effective communication, and a commitment to patient safety and quality care.
- Graduates will be prepared for leadership roles in cardiac technology, engaging in continuous learning, research and professional development to advance the field and improved patient outcome.

- Candidates will appear in an interview to be conducted by the University

Program Objectives:

The Two year AD MLT program will acquaint the students with the knowledge in the field of Medical Laboratory Technology and its related academics and applied aspects. The program aims to prepare the students to effectively assist the senior health professionals in the delivery of quality health services from primary to the tertiary level.

Program Outcomes :

The skilled graduates will efficiently and professionally discharge their duties in the functioning of medical laboratory. The graduates will be able to assist the doctors in discharging the duty.

Bachelor of Science in Medical Lab Technology

Program Code	154
Number of Courses	47 + Seminar + Project
Credit Hours	137

Eligibility:

- i. **4 Years:** F.Sc (Pre-Medical / MLT) or A-Level with equivalence certificate from IBCC, Islamabad with at least 45% marks.

Candidates with Diploma in relevant field with at least 45% marks in annual system or 2.00 CGPA on the scale of 4.00 in semester system duly registered by Khyber Pakhtunkhwa Medical Faculty with equivalency certificate from IBCC Islamabad are eligible to apply.

- ii. **2 Years:** Candidates holding Associate Degree in relevant discipline with at least 2.00 CGPA on the scale of 4.00 from any recognized university/ institution will join from the 5th semester of their degree program. The scheme from 5th till 8th Semester will be followed.
- iii. **2.5 Years:** Candidates holding Bachelor degree (14 years of education) with at least 45% marks in annual system or Associate Degree in other than relevant discipline with at least 2.00 CGPA on the scale of 4.00 from any recognized university/ institution will join from the Bridge semester of their degree program. After Bridge Semester, the scheme from 5th till 8th Semester will be followed.

Candidates needs to pass an entry test or an aptitude interview conducted by the University.

Program Objectives:

- To have in-depth knowledge of Physiology, Biochemistry, Pathology and Anatomy of human body focusing on diagnostic elements.
- To enable the students to have necessary technical skills to operate, manage, troubleshoot & maintenance of Laboratory equipment.
- To enable to maintain protective and cross contamination free environment in the Laboratory and patient sample taking area.
- To inculcate ethical principles and professional standards in students making them useful members of the medical laboratory team.

Minimum Duration	8 Semesters, 4 Years
Maximum Duration	16 Semesters, 8 Years
Minimum CGPA Required To Earn Degree	2.00

Program Outcomes :

- Graduates will demonstrate in-depth knowledge of Anatomy, Physiology, Biochemistry and disease process especially general and special pathology of human body
- Graduates will exhibit proficiency to manage & maintain the laboratory cleanliness and sterilization of laboratory instruments and maintenance of the machines and equipment's requires for caring out different tests of the patients.
- Graduates will adhere to the highest ethical standards demonstrating professionalism, effective communication and commitment to avoid contamination in order to ensure the patient safety and quality care.
- Graduates will be able to work as an effective member of laboratory team.
- Graduates will engage in continuous professional development, research and education in the field of medical laboratory to improve patient care.

Bachelor of Science in Nutrition & Dietetics

Program Code:	196
Number of Courses:	46+ Project
Credit Hours:	138

Eligibility:

- Candidates with F.Sc (Pre-Medical) or A-Levels with equivalency certificate from IBCC Islamabad with at least 45% marks are eligible to apply.
- Candidates will have to appear in an entry test to be conducted by any registered Testing Agency or University.

Candidates will appear in an interview to be conducted by the University.

Program Objectives:

- To abreast the students with a deep understanding of Anatomy, Physiology, Pharmacology and Biochemistry especially relevant to the field of nutrition and dietetics which is intake of food, its absorption, assimilation and utilization by the human body.
- To impart the student the knowledge of good nutrition important for the normal growth, development, delaying aging, healthy pregnancy outcomes, maintaining a healthy body and reducing the risks of chronic diseases leading to overall health of wellbeing.
- To develop the fundamental education of nutrition in order to help the individuals to establish food habits and practices that are consistent with the nutritional needs of the body and adopted to the cultural patterns and food resources in the area in which they live.
- To prepare the graduates for leaderships roles and continuous professional developments in the field of nutrition, engaging themselves in research, education and advocacy.

Wali Ullah

Lab Technologist

Islamabad Diagnostic Center,
Islamabad

We sincerely appreciate the faculty and staff of Sarhad Institute of Allied Health Sciences (SUIT) for their unwavering commitment to the welfare of our students and the achievement of our educational objectives. I genuinely have nothing but appreciation for the faculty's prompt and flexible responsiveness to our educational needs and individual endeavors in light of the (very) exceptional circumstances. At the moment, I am employed as a lab technician at the Islamabad Diagnostic Center. Having such a capable faculty looking out for us gives me great comfort.

Minimum CGPA Required To Earn Degree	2.00

Program Outcomes :

- Graduates will demonstrate a comprehensive understanding of radiology and imaging including the anatomy of human body, physiology and pathology.
- Graduates will demonstrate proficiency in practical skills in the use, radiation protection, troubleshooting and maintenance of equipment specific to radiology and imaging ensuring optimal patient care.
- Graduates will apply evidence-based practices and critical thinking skills to effectively manage and respond to the clinical challenges in the field of radiology and imaging.
- Graduates will adhere to the highest ethical standards demonstrating professionalism, effective communication, and a commitment to patient safety and quality care.
- Graduates will demonstrate skills in research and analysis in the field of radiology and imaging.

Wajeeha Zarin Afridi

Lecturer,
GGDC, Pabbi,
Nowshehra.

SUIT has changed my perspective about how to deal with the challenges of life, in both personal and professional capacities. I wouldn't be as content and successful today if it weren't for my teachers. Despite the fact that it has been 3 years since I graduated from SUIT, my professors are still readily available to assist and direct me with any academic difficulties I encounter. I am blessed to have them in my life.

Bachelor of Science in Surgical Technology

Program Code:	195
Number of Courses:	48 + Project
Credit Hours:	136

Eligibility:

- Candidates with F.Sc (Pre-Medical, Surgical / OT) or A-Levels with equivalency certificate from IBCC Islamabad with at least 45% marks are eligible to apply.
- Candidates with Diploma in relevant field with at least 45% marks in annual system or 2.00 CGPA on the scale of 4.00 in semester system duly registered by Khyber Pakhtunkhwa Medical Faculty with equivalency certificate from IBCC Islamabad are eligible to apply.
- Candidates will have to appear in an entry test to be conducted by any registered Testing Agency or University.
- Candidates will appear in an interview to be conducted by the University.

Program Objectives:

- To have in-depth knowledge of Anatomy, Physiology, Biochemistry and Pathology of human body.
- To enable the students to have necessary technical skills to manage & maintain the OT cleanliness & sterilization of surgical instruments.
- To enable the students to look after the sucker machines etc. They are also trained to prepare surgical trolley according to the due surgical procedure for optimal patient care.
- To inculcate ethical principles and professional standards in students making them useful members of the surgical team.
- To keep abreast with academic research to have new knowledge undergoing in the field.

Program Outcomes :

- Graduates will demonstrate in-depth knowledge of Anatomy, Physiology, Biochemistry and Pathology of human body.
- Graduates will exhibit proficiency to manage & maintain the OT cleanliness & sterilization of surgical instruments and maintenance of the sucker machines etc. They are also able to prepare surgical trolley according to the due surgical procedure.

Minimum Duration	8 Semesters, 4 Years
Maximum Duration	16 Semesters, 8 Years
Minimum CGPA Required To Earn Degree	2.00

- Graduates will adhere to the highest ethical standards demonstrating professionalism, effective communication and commitment to patient safety and quality care.
- Graduates will be able to work as an effective member of surgical team.
- Graduates will engage in continuous professional development in the field of surgery to improve patient care.

Bachelor of Science in Cardiac Perfusion Technology

Program Code	256
Number of Courses	47+Research Project
Credit Hours	138

Eligibility:

- Candidates with F.Sc (Pre-Medical) or A-Levels with equivalency certificate from IBCC Islamabad with at least 45% marks are eligible to apply.
- Candidates with Diploma in relevant field with at least 45% marks in annual system or 2.00 CGPA on the scale of 4.00 in semester system duly registered by Khyber Pakhtunkhwa Medical Faculty with equivalency certificate from IBCC Islamabad are eligible to apply.
- Candidates will have to appear in an entry test to be conducted by any registered Testing Agency or University.
- Candidates will appear in an interview to be conducted by the University.

Program Objectives:

- To develop a strong foundational knowledge in human anatomy, physiology, biochemistry, pathology and cardiovascular system specifically related to perfusion technology.
- To equip the students with practical skills in the use of perfusion equipment, including extracorporeal circulation, cardiopulmonary bypass and other advanced perfusion techniques.
- To promote critical thinking and problem-solving abilities through case studies, simulators and clinical rotations in diverse healthcare settings.
- To enhance students' understanding of professional and ethical standards in cardiac perfusion. Emphasizing patient safety, quality assurance and effective communication within the healthcare team.
- To prepare graduates for leadership roles and continuous professional development in the field of cardiac perfusion, including participation in research, education and advocacy.

Merit List Policy:

The merit list will be prepared on the basis of following:
Fsc 70% + Entry Test 30%

Minimum Duration	8 Semesters, 4 Years
Maximum Duration	16 Semesters, 8 Years

Program Code	100
Number of Courses	24
Credit Hours	69

Minimum Duration	4 Semesters, 2 Years
Maximum Duration	10 Semesters, 5 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility:

F.Sc (Pre-Medical) or A-Levels with Equivalency Certificate from IBCC Islamabad with at least 45% Marks or an equivalent certificate from a recognized institution, are eligible to apply. Candidates will have to pass an entry test and aptitude interview conducted by the University.

Program Objectives:

The two year program is designed in accordance with the guidelines provided by Higher Education Commission, Islamabad, Pakistan in Biotechnology to provide the students an insight to the nucleic acid manipulation, basic cell techniques with their impacts on the human health and environment for overall improvement of socioeconomic status of individuals at local and national level.

Program Outcomes :

After getting AD in Biotechnology, the students will be able to understand various aspects of biotechnology and their utilization for the welfare of human society. They will have capability to use biotechnological techniques in diagnostic and research activities and solution of biotechnological problems.

Bachelor of Science in Biotechnology

Program Code:	082
Number of Courses:	48 + Research
Credit Hours:	142

Minimum Duration	8 Semesters, 4 Years
Maximum Duration	16 Semesters, 8 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility:

- 4 Years:** F.Sc (Pre-Medical) or A-Levels with Equivalency Certificate from IBCC Islamabad with at least 45% Marks or equivalent certificate from a recognized institution are eligible to apply.
- 2 Years:** Candidates holding Associate Degree in relevant discipline with at least 2.00 CGPA on the scale of 4.00 from any recognized university/ institution will join from the 5th semester of their degree program. The scheme from 5th till 8th Semester will be followed.
- 2.5 Years:** Candidates holding Bachelor degree (14 years of education) with at least 45% marks in annual system or Associate Degree in other than relevant discipline with at least 2.00 CGPA on the scale of 4.00 from any recognized university/ institution will join from the Bridge semester of their Degree program. After Bridge Semester, the scheme from 5th till 8th Semester will be followed.

Candidates need to pass an entry test or an aptitude interview conducted by the University.

Program Objectives:

- To ensure students understanding the principles and methodologies of biotechnology, including genetic engineering, molecular biology, and bioinformatics.
- To equip students with practical laboratory skills and hands-on experience with modern biotechnological tools and techniques.
- To encourage students to engage in research projects, fostering innovation and the ability to conduct independent scientific investigations.
- To develop an understanding of the ethical, legal, and social implications of biotechnological advancements.
- To prepare students for careers in biotechnology, pharmaceuticals, healthcare, agriculture, and environmental sectors.

Program Outcomes :

- Graduates will be able to demonstrate and explain the molecular mechanisms underlying different biotechnological processes and applications.
- Graduates will be competent to perform standard biotechnological laboratory techniques, including DNA/RNA extraction, PCR, gel electrophoresis, cloning, and sequencing.
- Graduates will have depth of knowledge of designing and conducting experiments, analyze the data, and interpret results in biotechnological research.
- Graduates will emphasize the ethical, legal and social issues related to biotechnology, genetic modification, cloning, and bioethics.
- Graduates will exhibit professionalism, teamwork, and effective communication skills in a collaborative environment.

Bachelor of Science in Microbiology

Program Code	019
Number of Courses	45 + Research Project
Credit Hours	141

Minimum Duration	8 Semesters, 4 Years
Maximum Duration	16 Semesters, 8 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility:

- 4 Years:** F.Sc (Pre-Medical) or A-Levels with Equivalency Certificate from IBCC Islamabad with at least 45% Marks or equivalent certificate from a recognized institution are eligible to apply.
- 2 Years:** Candidates holding Associate Degree in relevant discipline with at least 2.00 CGPA on the scale of 4.00 from any recognized university/ institution will join from the 5th semester of their degree program. The scheme from 5th till 8th Semester will be followed.
- 2.5 Years:** Candidates holding Bachelor degree (14 years of education) with at least 45% marks in annual system or Associate Degree in other than relevant discipline with at least 2.00 CGPA on the scale of 4.00 from any recognized university/ institution will join from the Bridge semester of their Degree program. After Bridge Semester, the scheme from 5th till 8th Semester will be followed.

Candidates need to pass an entry test or an aptitude interview conducted by the University.

Program Objectives:

- To ensure students gain a comprehensive understanding of microbial systems, including physiology, genetics, ecology, and pathogenesis.
- To equip students with advanced technical skills in microbiology laboratory techniques, including the use of modern tools and methodologies.
- To encourage students to engage in research projects, fostering innovation and the ability to conduct independent scientific investigations.
- To instill a strong sense of ethical responsibility and an understanding of the social implications of microbiological research and practice.
- To prepare students for diverse career paths in microbiology, including roles in healthcare, biotechnology, environmental science, and public health.

Program Outcomes :

- Graduates will be able to demonstrate a thorough understanding of microbial physiology, genetics, ecology, and pathogenesis, and how these principles apply to real-world scenarios.
- Graduates will efficiently apply advanced microbiological techniques, such as CRISPR, metagenomics, and bioinformatics, to conduct experiments and analyze data accurately.
- Graduates will be competent to design and conduct experiments, analyze data, and interpret results in microbiology research.
- Graduates will have the depth of Knowledge to recognize and address ethical issues in microbiology research and practice, demonstrating an awareness of the social implications and global impact of microbiological work.
- Graduates will demonstrate the knowledge, technical skills, and professional competencies necessary for successful careers in microbiology and related fields, including effective communication and teamwork abilities.

**FACULTY OF
SCIENCES, COMPUTER SCIENCE & IT**

Faculty of Sciences, Computer Science & IT

In the scientific fields of this century, revolutionary interdisciplinary research and teaching activities necessitate a visionary role of educational institutions. The faculty has been established to meet this pressing need. We are building upon the scientific tradition in new ways to enhance the educational experience of our students while developing links with business and industry. Efforts have been made to transform the scientific understanding into ways of enriching human experience in the modern world. In the classrooms, our teachers prepare students for leadership roles in scientific fields by providing them sound foundations. We hope that more and more aspiring students would involve themselves in our exciting and important endeavors to change the world for the better through application of the acquired knowledge.

Department of Computer Science & IT

Vision

To be a leading department in the field of Computer Science and Information Technology, recognized for its commitment to academic excellence, innovation, and research, producing graduates and scholars who drive technological advancements and address global challenges.

Mission

Our mission is to provide quality education and cutting-edge research opportunities in Computer Science and Information Technology, preparing students for successful careers and leadership roles in diverse fields. We are dedicated to fostering creativity, critical thinking, and ethical practices, while contributing to the advancement of knowledge and the development of solutions that address societal needs. Through collaboration, interdisciplinary approaches, and partnerships with industry and academia, we strive to make significant contributions to the field and to society at large.

Programs Offered:

Bachelor of Science in Computer Science

Bachelor of Science in Software Engineering

Bachelor of Science in Electronics

Bachelor of Science in Telecommunication

Bachelor of Science in Artificial Intelligence

Bachelor of Science in Data Science

Bachelor of Science in Cyber Security

Bachelor of Science in Computer Engineering Technology

Faculty Members, Department of Computer Science & IT

Prof. Dr. Saeed Mahfooz	Dean, Faculty of Sciences, Computer Science & IT	Ph.D Distributive Systems, Liverpool John Moores University, UK
Prof. Dr. Jahangir Khan	Head of Department	Ph.D Agriculture Information Technology, China Agricultural University, China
Dr. Shahid Latif	Associate Professor	Ph.D Computer Science, University of Peshawar
Dr. Haroon Ur Raheed	Associate Professor	Ph.D Mathematics, Abdul Wali Khan University, Mardan
Dr. Muhammad Asif Khan	Assistant Professor	Ph.D Computer Science, FAST-NUCES, Islamabad
Dr. Saadat Khan	Assistant Professor	Ph.D Physics, Gomal University, DI Khan
Dr. Muhammad Ismail Mohmand	Assistant Professor	Ph.D Engineering (Software Engineering), Lincoln University College, Malaysia
Dr. Asad Ali	Assistant Professor	Ph.D Computer Science and Information Technology, University of Salerno, Italy
Dr. Muhammad Sohail	Assistant Professor	Ph.D Computer Science, KUST, Kohat
Mr. Abu Bakar Nauman	Assistant Professor	MSc Computer Science, Bahauddin Zakariya University, Multan
Ms. Zanoobia Nisar	Assistant Professor	MS Computer Science, Islamia College University, Peshawar
Mr. Maddad Khan	Assistant Professor	MS Business Information Technology, Southampton SOLENT University, UK
Engr. Mudassir Aman	Coordinator	MS Electrical Engg. (Communication & Electronics Engg., UET Peshawar
Mr. Muhammad Jebran Khan	Assistant Professor	MS Mathematics, Bacha Khan University, Charsadda
Engr. Aiman Rashid	Assistant Professor	MSc Computer System Engineering, UET, Peshawar
Mr. Asad Malook	Assistant Professor	MS Computer Science (Telecom), University of Peshawar
Mr. Adam Khan	Assistant Professor	MS Computer Science, Abasyn University, Peshawar
Mr. Kamran Khan Tatari	Assistant Professor	MS Software Engineering, Sweden
Engr. Aamir Shahzad	Lecturer	MS Software Engineering, University of Bradford, UK

Faculty Members, Department of Computer Science & IT

Mr. Raheem Ullah	Lecturer	MS Software Engineering, Abasyn University Peshawar
Engr. Altamash Khan Afridi	Lecturer	MSc Computer Systems Engineering, UET, Peshawar
Mr. Syed Rohan Ali Shah	Lecturer	MS Information Technology (Computer Networks), IM Sciences, Peshawar
Engr. Zia Ullah	Lecturer	MS Software Engineering, COMSATS University, Islamabad
Mr. Mudassir Shah	Lecturer	MS Computer Science, University of Peshawar
Engr. Muhammad Yasir	Asst. Coordinator	MS Computer Software Engineering, UET, Peshawar
Mr. Ishtiaq Ali	Lecturer	MS Software Engineering, COMSATS University, Islamabad
Mr. Asim Ali	Lecturer	MS Computer Science (Software Engineering), CECOS University Peshawar
Mr. Muhammad Danish Ali	Junior Lecturer	BS Computer Science, Agriculture University, Peshawar
Mr. Niamat Ullah	Junior Lecturer	MSc Computer Science, University of Peshawar

Bachelor of Science in Computer Science

Program Code	001
Number of Courses	42 Theory + 17 Lab + FYP
Credit Hours	135

Minimum Duration	8 Semesters; 4 Years
Maximum Duration	14 Semesters, 7 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility:

Intermediate (Pre-Engineering/ Computer Science/ Pre-Medical) with at least 50% marks or A- Levels (22 Points) with Equivalency Certificate from IBCC Islamabad or an equivalent Certificate from a recognized institution.

Pre Medical Students must pass Deficiency courses of Mathematics of 6 Credit Hours with in the first year of their regular studies.

Candidates need to pass an Entry Test/ Aptitude interview conducted by the University.

Program Educational Objectives:

PEO 1 Computing Foundation: Graduates will possess a strong academic foundation and analytical skills to solve complex computing problems, leveraging comprehensive computer science knowledge.

PEO 2 Professional Growth: Graduates will excel in designing and developing innovative computing solutions using modern tools and technologies, while effectively working both independently and as part of diverse teams.

PEO 3 Societal Responsibility: Graduates will demonstrate effective communication skills, uphold ethical standards and professionalism, contribute positively to society, and engage in life-long learning to adapt to evolving technological advancements.

Graduate Attributes:

GA-1 Academic Education: Completion of an accredited program of study designed to prepare graduates as computing professionals.

GA-2 Knowledge for Solving Computing Problems: Apply knowledge of computing fundamentals, knowledge of a computing specialization, and mathematics, science, and domain knowledge appropriate for the computing specialization to the abstraction and conceptualization of computing models from defined problems and requirements.

GA-3 Problem Analysis: Identify and solve complex computing problems reaching substantiated conclusions using fundamental principles of mathematics, computing sciences, and relevant domain disciplines.

GA-4 Design/Development of Solutions: Design and evaluate solutions for complex computing problems, and design and evaluate systems, components, or processes that meet specified needs.

GA-5 Modern Tool Usage: Create, select, or adapt and then apply appropriate techniques, resources, and modern computing tools to complex computing activities, with an understanding of the limitations.

GA-6 Individual and Teamwork: Function effectively as an individual and as a member or leader of a team in multidisciplinary settings.

GA-7 Communication: Communicate effectively with the computing community about complex computing activities by being able to comprehend and write effective reports, design documentation, make and understand clear instructions. Effective presentations, and give

GA-8 Computing Professionalism and Society: Understand and assess societal, health, safety, legal, and cultural issues within local and global contexts, and the consequential responsibilities relevant to professional computing practice

GA-9 Ethics: Understand and commit to professional ethics, responsibilities, and norms of professional computing practice.

GA-10 Life-long Learning: Recognize the need, and have the ability, to engage in independent learning for continual development as a computing professional.

Bachelor of Science in Electronics

Program Code	008
Number of Courses	41 Theory + 18 Lab-based + FYP
Credit Hours	136

Minimum Duration	8 Semesters, 4 Years
Maximum Duration	16 Semesters, 8 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility:

Intermediate (Pre-Engineering/ Computer Science/ Pre-Medical) with at least 45% marks or A- Levels (22 Points) with Equivalency Certificate form IBCC Islamabad or an equivalent Certificate from a recognized institution.

Pre Medical Students must pass Deficiency courses of Mathematics of 6 Credit Hours with in the first year of their regular studies.

Candidates need to pass an Entry Test/ Aptitude interview conducted by the University.

Program Educational Objectives:

The BS Electronics program has been designed to equip our graduates with the necessary tools, teaching techniques and knowledge of the field. These graduates can prove their worth in industrial concerns, businesses, teaching or research. Owing to their knowledge and expertise, they can help the local industry in reaping the benefits of industrial automation in the real sense.

Program Outcomes

- An ability to select and apply the knowledge, techniques, skills and modern tools of the discipline to broadly-defined engineering technology activities.
- An ability to function effectively as a member or leader on a technical team.
- An ability to identify, analyze and solve broadly-defined engineering technology problems.
- An ability to apply written, oral, and graphical communication in both technical and non-technical environments; and an ability to identify and use appropriate technical literature.
- An understanding of the need for and an ability to engage in self-directed continuing professional development.
- An understanding of and a commitment to address professional and ethical responsibilities including a respect for diversity.
- An ability to use current techniques, skills and tools necessary for computing practice, including the ability of expressing algorithms in at least two of the most important computer languages.

Program Educational Objectives:

The BS Telecommunication program is designed to provide students with the skills and knowledge needed to meet the requirements of a rapidly advancing and challenging field that is in great demand in Pakistan and abroad. Emphasis is placed on providing students with the broadband telecommunications background skills required to adapt to the dynamic field of telecommunications. A number of mathematics courses have been included to give the direly needed strength to our graduates in modeling the real world problems. The syllabus is designed so as to keep our students abreast with the latest technologies. The program also aims at providing students with a firm base for undertaking higher studies in Telecommunication Systems.

Program Outcomes

- An ability to apply knowledge of mathematics, science, and engineering.
- An ability to function on multi-disciplinary teams.
- An understanding of professional and ethical responsibility.
- An ability to communicate effectively.
- An ability to design and conduct scientific and engineering experiments, as well as to analyze and interpret data.

Candidates need to pass an Entry Test/ Aptitude interview conducted by the University.

Program Educational Objectives:

PEO 1 Academic Foundation: To equip graduates with a solid academic foundation for effectively addressing computing challenges and proficient problem analysis.

PEO 2 Professional Growth: To empower graduates with expertise in designing and developing solutions, adept utilization of modern tools, and proficient both individually and in teams.

PEO 3 Societal Responsibility: Demonstrate professionalism and effective communication while upholding ethical and societal standards, and to foster a commitment to continuous learning throughout their professional journey.

Graduate Attributes:

GA-1 Academic Education: Completion of an accredited program of study designed to prepare graduates as computing professionals.

GA-2 Knowledge for Solving Computing Problems: Apply knowledge of computing fundamentals, knowledge of a computing specialization, and mathematics, science, and domain knowledge appropriate for the computing specialization to the abstraction and conceptualization of computing models from defined problems and requirements.

GA-3 Problem Analysis: Identify and solve complex computing problems reaching substantiated conclusions using fundamental principles of mathematics, computing sciences, and relevant domain disciplines.

GA-4 Design/Development of Solutions: Design and evaluate solutions for complex computing problems, and design and evaluate systems, components, or processes that meet specified needs.

GA-5 Modern Tool Usage: Create, select, or adapt and then apply appropriate techniques, resources, and modern computing tools to complex computing activities, with an understanding of the limitations.

GA-6 Individual and Teamwork: Function effectively as an individual and as a member or leader of a team in multidisciplinary settings.

GA-7 Communication: Communicate effectively with the computing community about complex computing activities by being able to comprehend and write effective reports, design documentation, make and understand clear instructions. Effective presentations, and give

GA-8 Computing Professionalism and Society: Understand and assess societal, health, safety, legal, and cultural issues within local and global contexts, and the consequential responsibilities relevant to professional computing practice

GA-9 Ethics: Understand and commit to professional ethics, responsibilities, and norms of professional computing practice.

GA-10 Life-long Learning: Recognize the need, and have the ability, to engage in independent learning for continual development as a computing professional.

GA-4 Design/Development of Solutions: Design and evaluate solutions for complex computing problems, and design and evaluate systems, components, or processes that meet specified needs.

GA-5 Modern Tool Usage: Create, select, or adapt and then apply appropriate techniques, resources, and modern computing tools to complex computing activities, with an understanding of the limitations.

GA-6 Individual and Teamwork: Function effectively as an individual and as a member or leader of a team in multidisciplinary settings.

GA-7 Communication: Communicate effectively with the computing community about complex computing activities by being able to comprehend and write effective reports, design documentation, make and understand clear instructions. Effective presentations, and give

GA-8 Computing Professionalism and Society: Understand and assess societal, health, safety, legal, and cultural issues within local and global contexts, and the consequential responsibilities relevant to professional computing practice

GA-9 Ethics: Understand and commit to professional ethics, responsibilities, and norms of professional computing practice.

GA-10 Life-long Learning: Recognize the need, and have the ability, to engage in independent learning for continual development as a computing professional.

Bachelor of Science in Computer Engineering Technology

Program Code	180
Number of Courses	33 + Research Project
Credit Hours	134

Minimum Duration	8 Semesters, 4 Years
Maximum Duration	16 Semesters, 8 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility:

Intermediate (Pre-Engineering/Computer Science/DAE in relevant Field) with at least 50% Marks or any equivalent certificate from a recognized institution are eligible to apply.

Candidates need to pass an entry test and an aptitude interview conducted by the University.

Program Educational Objectives:

- PEO-1: Engage in applications oriented work and management of computer systems, including software, hardware, computer networking and network management.
- PEO-2: Use appropriate theory, mathematics and computational technology to analyze and solve problems encountered in the applications of computersystems.
- PEO-3: Communicate, using oral, written and computer based communication technology, as well as function effectively as an individual and a team member in processional environment.
- PEO-4: Pursue lifelong learning and continuous improvement of their knowledge and skills in the design, development, and application of computer systems in diverse industries with the highest professional and ethical standards.
- PEO-5: Understand the local, national and global issues related to the development and applications of computer systems and to be considerate of the impact of this issue on different cultures.

Program Learning Outcomes (PLO's)

- PLO-01:** Technology Knowledge: To Apply knowledge of computer technology and the implementation of the technology to solve the technical problems and to find solution of complex technical scenarios.
- PLO-02:** Problem Analysis: To identify, analyze and understand the technical problems and to formulate appropriate solutions for them.
- PLO-03:** Implementation of Design of Solution: To Develop the ability of implementing the formulated solution for technical problems.
- PLO-04:** Investigation: To investigate the technical problem in a step-wise manner including a thorough survey of the problem, understanding its design, formulating numerous solutions and experimenting with various solutions to finalize one according to the design.
- PLO-05:** Modern Tool Usage: To analyze all the updated tools and to utilize most updated IT tools for designing of a solution for a technical problem including prediction and modeling of technical activities with an understanding of limitations.
- PLO-06:** The Technology and Society: To conduct a survey for the use of technology in the most professional and ethical manner.
- PLO-07:** Environment and Sustainability: To understand the impact of technical tools on the environment and to make sure the technological solutions demonstrate a safe environment along with the sustainable development of society.
- PLO-08:** Ethics: To conduct ethical principles for the fulfillment of all the ethical norms of the technical practices.
- PLO-09:** Individual and Team Work: To be able to work individually if needed and give an effective output as well as to be able to produce best in team work.
- PLO-10:** Communication: To communicate effectively with the engineering community and deliver the best of one's knowledge through effective communication skills and to give/receive clear instructions.
- PLO-11:** Project Management: To be able to demonstrate the impact of technical solutions of one's own work and to manage projects in a multi-disciplinary environment.
- PLO-12:** Life-Long Learning: To be able to recognize the importance of being always indulged in a learning environment and to pursue life-long learning for every new development in technical environment.

Eligibility:

Candidates having F.Sc (Pre-Engineering/ Computer Science) or A-Levels with an Equivalency Certificate from IBCC Islamabad with at least 50% Marks or an equivalent certificate from a recognized institution are eligible to apply.

Candidates need to pass an Entry test/apptitude interview conducted by the university.

Program Objectives:

The objectives of BS in mathematics program are to prepare graduates with enhanced skills, knowledge and attributes that will be needed for a successful career and professional accomplishments after graduation. The program aims to produce graduates who:

- Have an appropriate combination of theoretical knowledge and practical skills to advance professionally in mathematics and related fields.
- Are able to use mathematical tools and language to understand the physical world around us.
- Are able to adapt to and succeed in a dynamic global environment.
- Are prepared to participate in lifelong learning opportunities.
- Are prepared for a professional career in education, or in business, industry and research institutions.
- Are prepared to continue formal education and obtain advanced degrees in mathematics or related fields.
- Aspire to evolve as integral part of society through their knowledge and professional skills.

Program Outcomes

At the end of the BS Program in Mathematics, students will be able to:

- Acquire knowledge of the variety of mathematical areas and their interrelation.
- Acquire the mathematical knowledge and skills necessary for success in their program or career.
- Develop the ability to read, discuss, and speak about mathematics.
- Develop the ability to work both independently and collaboratively on mathematical problems.
- Acquire knowledge of the roles of intuition, formalization, and proof in mathematics.
- Develop problem-solving skills.
- Develop the ability to write about mathematics.
- Develop critical thinking skills.

Department of Business Administration

FACULTY OF MANAGEMENT SCIENCES

Faculty of Management Sciences

The Faculty of Management Sciences was the first discipline of study started in the Sarhad University of Science and Information Technology, Peshawar for catering the ever-increasing demand of management professionals. The programs offered by the University at the Undergraduate and Postgraduate levels are aimed at producing managers and entrepreneurs who can promote the trade and industry in the area by putting in the skills and expertise developed during their stay at this university. The outgoing graduates are expected to be professionally equipped with state-of-the-art management techniques and capable enough to tackle the real world Business Management problems. The programs emphasize upon the development of analytical abilities with a view to enable the graduates to handle critical situations concerning humans and materials and to utilize the resources in the best optimum way.

Department of Business Administration

Vision

To be acknowledge and recognized as one of the leading business school at national and world wide for education and research in the areas of Business and Management.

Mission

To provide economically, socially, and culturally relevant business and management related education to all those who wish to benefit from it. We are a demand-led and customer focused education institution. We enhance learning, build confidence and create opportunities for all who choose to invest in studying at our school.

Programs Offered:

Associate Degree in Business Administration
Bachelor of Business Administration
Associate Degree in Commerce
Bachelor of Science in Commerce
Associate Degree in Business Analytics
Bachelor of Science in Business Analytics

Candidates will be required to pass an entry test / an interview conducted by the university.

Program Objectives:

This program aims at producing students who are capable and could demonstrate understanding of work as per market need and could adapt quickly to the expectations of employers. To this end the program is set to have the following objectives:

- To enable the students to have early professional life;
- To enable the students to identify and analyze business problems and opportunities and recommend courses of action in the subject context;
- To enable the students to communicate effectively and professionally;
- To enable the students to exhibit awareness of economic, environmental, political, ethical, legal and regulatory business contexts;
- To enable the students to behave professionally, effectively and respectfully with all the stakeholders; and
- To enable them to apply administrative concepts and methods to address office issues and organizational performance.

Program Outcomes

On the completion of the degree, the students would be expected to have:

- The potential to start professional career;
- The required skills to identify and analyze business problems and opportunities and recommend courses of

action in the subject context;

- The potential to communicate effectively and professionally;
- The required awareness of economic, environmental, political, ethical, legal and regulatory business contexts;
- Learnt how to behave professionally, effectively and respectfully with all the stakeholders; and

شعبہ اُردو

ضرورت و اہمیت:

زبان انسان کے افکار، خیالات، تصورات، جذبات و احساسات کے اظہار کا بہترین ذریعہ ہے۔ اور اس میں مہارت کے حصول سے اغراض کی وجہ سے وہ اپنے علم، افکار اور تجربات کا صحیح اظہار نہیں کر سکتا۔ اُردو پڑھانے اور بولنے کا مقصد یہی ہے کہ طلباء اس زبان میں مسلسل اور مربوط طریق پر خوب صورت گفتگو کر سکیں۔ اُردو زبان میں مہارت خود اُردو ہی کے نقطہ نظر سے نہیں دوسرے علوم کی تفہیم و ترقی کے لحاظ سے بھی ضروری ہے۔

اُردو پاکستان کی قومی زبان ہے اور کوئی ملک اپنی قومی زبان سے صرف نظر نہیں کر سکتا۔ قومی زبان علاقائی فرق کو مٹا کر پورے ملک کو ایک وحدت کی لڑی میں پروتی ہے اس لیے قومی زبان نہ صرف پورے ملک کے رابطے کی زبان ہوتی ہے بلکہ قومی وحدت اور اتحاد کا ایک بڑا ذریعہ بھی ہوتی ہے۔

مقاصد:

اُردو زبان و ادب کے ذریعے طلباء میں حصول علم کا جذبہ پیدا کرنا، تاکہ وہ ملک و قوم کے لیے مفید شہری ثابت ہوں۔

طالب علموں کے لیے زبان و ادب کے مضامین کے علاوہ ایسے مضامین کی تدریس کا بھی اہتمام کیا گیا ہے جن کی تحصیل سے وہ عملی زندگی کے مختلف شعبوں میں اپنی صلاحیتوں کو آزمائیں اور ان کی معاشی ضرورت کو پورا کر سکیں۔
طلباء کے لیے ایسے موضوعات منتخب کرنے میں آسانی پیدا کرنا جو ان کی معاشی ضرورت کو پورا کر سکیں اور عملی زندگی میں مفید ثابت ہو سکیں۔

ADMISSION PROCESS

1. Application/ Admission Procedure

University offers undergraduate admissions bi-annually in the Fall and Spring Semesters (other than Nursing, Engineering and Pharmacy Programs, which are offered once a year in Fall Semester) in accordance with the following procedure:

- 1.1 Admission to undergraduate programs of the University shall be advertised by the Directorate of Admissions in consultation with Concerned Heads of Departments / Directors of Institutes.
- 1.2 The Candidate shall meet the eligibility criteria as mentioned against the program of interest.
- 1.3 Prospectus along with admission forms are available on the website, at TCS outlets of Khyber Pakhtunkhwa, and Main Campus of the University.
- 1.4 Application for admission must be made on the form enclosed within the prospectus. Photocopy or computer print will not be accepted. In case candidates apply online, they should submit hard copy of online submitted form only with all required credentials to the directorate of Admissions on or before prescribed dates mentioned in the advertisement.
- 1.5 Each candidate shall submit only one application. The applicant shall clearly mention the choices of the programs of interest.
- 1.6 Applications for admissions shall be submitted online through website or physically to the Directorate of Admissions within the prescribed period.
 - a. Receipt of online application shall be acknowledged through text message on the cell number given in the application form.
 - b. Receipt of application submitted through surface mail (by post/courier service) shall be acknowledged via text message on the cell number given in the application form.
 - c. Receipt of application submitted on campus shall be acknowledged at the time of submission.
- 1.7 The University reserves the right to reject any application received after due date and allotted time and/or found deficient in any respect.
- 1.8 Incomplete Applications in any respect will not be considered.
- 1.9 The number of students to be admitted shall be determined by the Head of Department/Director of institute in consultation with concerned Dean, Competent Authority as per allocated seats.
- 1.10 Entry Test/Interview are to be conducted as per the respective Department/Institute Policy.
- 1.11 Merit lists will be uploaded on the University's Website, other official social media platforms, and Directorate of Admissions Notice Board.

- 1.12 Two sets of attested copies of certificates, testimonials and four colour photographs (White background) should be attached with the application form.
- 1.13 Hard copies of the online submitted application form along with all required credentials should be submitted by the selected applicant to the Directorate of Admissions on or before prescribed dates as per advertisement.
- 1.14 According to merit list(s), the selected candidates shall be required to submit their original credentials to the Admissions Committee for verification. An Admissions Committee shall consider the applicants for admission to different programs on the basis of academic record, entry / aptitude test and or interview of the candidates. After successful scrutiny of the documents, the Admission Committee shall issue invoices to the selected candidates.
- 1.15 The admission of a candidate to a program shall initially be provisional, to be confirmed after:
 - i. verification of testimonials / documents,
 - ii. removal of course deficiencies, if any.
- 1.16 Applicants and their parents shall give an undertaking to abide by the Rules and Regulations of the University and such instructions as may be issued by the Competent Authority of the University from time to time.
- 1.17 Responsibility of correctness of the provided data in the application form shall rest upon the applicant. In case of any discrepancy or false information provided in application form/submitted documents, the admission shall be cancelled at any stage of the degree program.
- 1.18 In order to secure admission, the selected student shall deposit Admission Fee along with Tuition Fee of the first semester in designated branch of the authorized bank of the University by the due date given in the invoice.
- 1.19 Applicants with a Bachelors (2 years) or Associate Degree completed in Annual System whether their qualification is relevant or irrelevant to the subject program will be required to study a bridge semester/additional courses in order to complete at least 130 credit hours (as only 50 credit hours of their previous Annual Mode degree will be considered). In case of relevant qualification in annual mode, the concerned Department will decide the courses to be taken in the appropriate semester. In addition, candidates must have studied compulsory subjects of Islamic Studies and Pakistan Studies / Ideology of Pakistan in their Bachelors/Associate Degree, otherwise, they will be required to study these subjects at SUIT in order to overcome the deficiency.

2. Restrictions and Declarations

- 2.1 Candidates punished by their previous institutions or universities on account of indiscipline or undesirable activities (major penalties) shall not be admitted in the University.
- 2.2 The authority concerned may refuse admission to a student who, in its opinion, has malafide intentions or undesirable background.

4. Procedure for Admission of Foreign Students

Non-Pakistani candidates desirous of joining Sarhad University are required to produce the following documents:

4.1. For Provisional Admission

- i. No Objection Certificate (NOC) from the Pakistan Embassy in the respective foreign country .
- ii. Duly-filled HEC Admission Proforma for Foreign Candidates.
- iii. Copy of valid Passport along with Visa.
- iv. Photocopies of all previous educational certificates/degrees attested by the concerned Embassy and Pakistan Foreign Office.
- v. Equivalence Certificate for Higher Secondary School Certificate (12-years of education) from the Inter Board Committee of Chairmen (IBCC), Plot No. 25, Street 38, G-10/4, Near Federal Government Employees Housing Foundation, Islamabad (Pakistan), Phone No: 051-9106630-36.
- vi. English Language Proficiency Certificate from the Pakistan Embassy in the respective foreign country .

4.2. For Confirmed Admission

- i. No Objection Certificate (NOC) from Higher Education Commission (HEC) for Admission in concerned degree program.
- ii. Study VISA for concerned degree program.

5. Admissions Committee

The following Admissions Committee is responsible to process admissions of all undergraduate programs:

- a. Head of the concerned Department / Director of the concerned Institute.
- b. One senior faculty member, other than Lecturer, to be nominated by the Dean of the concerned Faculty.
- c. Director Admissions.

IMPORTANT RULES & REGULATIONS

1.1 Enrolment in Semester / Term

- a. At the beginning of each semester/ term, a student must enroll in courses of studies on the prescribed enrolment form.
- b. The enrolment shall not be deemed complete unless a student makes payment of all prescribed fees and submits the course enrolment form.
- c. Enrolment and fee payment shall be completed by the dates notified for this purpose, provided the authority concerned may, in special circumstances and on the payment of a late fee of Rs. 5,000/-, permit a student to enroll within 3 weeks after the commencement of a semester/ term. This permission of late admission/ enrolment shall be at the student's risk who shall be responsible to make up for the deficiency on his/her own.
- d. A student admitted to a program shall, for so long as he/she has not completed all requirements for the degree, enrol himself/ herself for each semester/ term, failing which his/her admission shall stand cancelled. In case he/she desires readmission, he/she shall have to apply afresh. The concerned authority may re-admit such a candidate, or refuse admission if reasons advanced are not convincing.
- e. A student who discontinues with permission may seek readmission in the same or subsequent semester/ term on the recommendations of the concerned faculty/ department/ institute and approval of the Competent Authority.
- f. A student shall not be allowed to enrol in a course having a pre-requisite course unless he/she passes that pre-requisite course.
- g. Course Audits: Students enrolled at Sarhad University may, on recommendations of their advisors/ tutors and approval of the concerned Dean/ Head of Department / Director of Institute, audit courses. Such students shall not receive any credit for the courses taken on audit basis. In order for a successful audit to show on a student's academic record (transcript), the student shall comply with all requirements specified by the teacher/ concerned department. Failure in meeting such requirements may lead to award of letter grade W (for withdrawn). Successful audit shall be indicated by letter grade V (for verified). Students registering for courses on audit basis shall pay tuition fees at the regular rate.
- h. In some programs, the theory and lab components are treated as separate courses. In such a case, if the theory component of a course (say Level I) is pre-requisite for the next higher course (Level II), enrolment in theory and lab components of Level II course shall be allowed only if the theory component of Level I is passed. A student who has failed theory of Level I, but passed lab of Level I shall neither be allowed to enrol in theory nor lab of Level II.
- i. The courses will be offered subject to the availability of the faculty and reasonable number of students.

1.2 Freezing of Semester/Term

- a. A bonafide student of the University may apply in person, or through parents/ guardian, for freezing of a regular semester, within five weeks from the date of commencement of semester, provided the student has paid the semester dues by the prescribed date. No fee shall be paid when the student subsequently enrolls in the next semester except for the difference of fee of the semester frozen and the semester in which the student enrolls.
- b. If a student freezes semester(s), he/she shall resume his/her studies from the same stage where he/she left (froze).
- c. If a student is not enrolled in any course in a semester, he/she shall not be considered a regular student of the University in that period. The student may then enrol in the courses in a subsequent semester; however, he/she shall meet pre-requisites of any course taken. Further, the University is not required to offer all courses in each semester.
- d. In special hardship cases, the University may develop any criteria for freezing a semester with the prior permission of

the Competent Authority. Medical certificate shall be duly issued by Government Hospital Doctor/ Physician.

- e. The duration of freezing is one year; a candidate who gets a semester frozen can get readmission next year with the upcoming session.
- f. Freezing of first semesters shall not be allowed.
- g. Under special hardship circumstances, freezing of first semester may be considered with the approval of the Competent Authority,
 - Iddat
 - Maternity
 - Death in the immediate family
 - Any other situation, subject to acceptance on justified rationale.

Note: Freezing of semester shall only be allowed after successful completion of 1st Semester.

2. Cancellation of Admission

Admission shall be cancelled if:

- 1.1 A bonafide student of the University applies in person, or through parents/guardian, for cancellation of admission on a non-judicial stamp paper, duly attested by an Oath Commissioner. The Vice Chancellor shall cancel the admission of the student on the recommendation of the Head of Department / Director of Institute through the concerned Dean.
- 1.2 A student registered in a semester/term remains willfully absent from the classes continuously for a period of 40 days. Such action shall be taken on the recommendation of the Head of the concerned Department.
- 1.3 If a student enrolls himself / herself in any other program of Sarhad University or some other University/DAI while registered at Sarhad University, his / her admission shall be cancelled immediately.
- 1.4 On the recommendation of the University Disciplinary/ Un Fair Means Committee the admission can be cancelled with the approval of the Vice Chancellor. However, the concern student can appeal to the Appellate Committee through proper channel.

3. Re-Enrolment

3.1 Semester System

- a. A student receiving F or W grade in any course shall be required to re-enrol in that course. A student receiving C, D or D+ grade in a course may also re-enrol in that course, subject to a maximum of one chance to improve his/her grade.
- b. A department may offer Repeated Courses (over and above the regularly scheduled courses with total credit hours not exceeding 18 for two/ four-Year degree programs and 22 credit hours for five-year degree program) during a regular semester to facilitate re-enrolling students. However, minimum number of students re-enrolling shall be 10; otherwise, the course shall be dropped.
- c. A student may re-enrol for a maximum of 2 courses during the Summer Semester. During a regular semester (Spring/Fall), a student may re-enrol for a course (in addition to the prescribed courses) on the payment of prescribed fee provided the maximum credit hours limit is not violated.
- d. If a course is abolished due to revision in curriculum or scheme of studies, the Head of Department / Director of Institute may recommend a relevant course from the existing curriculum as replacement for the

candidates who need to re-enrol in the abolished course. The same shall be reflected in the students' Registration Forms and Transcripts.

3.2 Term System

- a. A student receiving F grade in any course shall be required to re-enrol in that course. A student receiving up to 64 marks in a course may also re-enrol in that course, subject to a maximum of one chance to improve his/her marks.
- b. A department may offer Repeated Courses (over and above the regularly scheduled courses and total courses not exceeding 7) during a regular term in order to facilitate the students. However, the number of re-enrolment students must be at least 5 or with the approval of the Dean on the recommendation of the Head of Department / Director of Institute. Otherwise, the course shall be dropped.
- c. During a regular term a student may re-enrol for courses (in addition to the prescribed courses) on the payment of the prescribed fee provided the maximum limit of courses is not violated.
- d. If a course is abolished due to revision in curriculum or scheme of studies, the Head of Department / Director of Institute may recommend a relevant course from the existing curriculum as replacement for the candidates who need to re-enrol in the abolished course. The same shall be reflected in the students' Registration Forms and DMCs.

4. Payment of Dues

At the time of admission, every student shall be required to deposit admission fee, registration fee, security, semester / term enrolment fee, tuition fee, examination fee, lab/chemical charges, and any other fee prescribed in the form of demand draft in the name of Sarhad University Peshawar, or deposit it at specified branch(es) of an authorized bank.

Similarly, for each subsequent semester/ term, dues shall be paid by the prescribed dates. Otherwise, the admission shall be cancelled.

5 (a) Semester System

- a. Sarhad University follows the semester system. There are two semesters (Fall and Spring) every year. Each semester is spread over 18 weeks (including examinations). At the end of each semester, two to three weeks are allowed for the compilation of results. Students promoted to the next semester have to complete their enrolment during the first week of each semester. Admissions are announced in August for the Fall semester usually commencing in October/November, whereas admissions for the Spring semester are announced in February. The Spring semester usually commences in April each year.
- b. The University may plan a crash semester (Summer Semester) of eight weeks during the summer break. Students who are interested to reappear and clear their failed courses / or want to improve grade shall be afforded the opportunity to do so during the Summer Semester. A student shall be allowed to take maximum two courses during the Summer Semester.
- c. While all degree programs have their specific durations, number of courses, and credit hour requirements, in general, a four-year degree program requires the completion of about 130 credit hours usually in eight semesters, whereas a two-year degree program requires the completion of more than 66 credit hours, usually in four semesters.
- d. By definition, a credit hour means teaching a theory course for one hour each week throughout the semester (provided the semester duration is at least 16 weeks excluding examinations). One credit hour in laboratory or experimental work requires contact of three hours per week throughout the semester. The

credit hours are denoted by two digits with a hyphen in between. The first digit represents the theory part, whereas the second (right side) digit represents the practical. Thus, 3-0 means three credit hours of theory, whereas 3-1 means a total of four credit hours, of which three credit hours are for theory and one credit hour is for laboratory. The weekly contact hours of a 3-0 course shall be three, the contact hours of a 3-1 course shall be six, and the contact hours of a 1-2 course shall be seven. The contact hours during the crash (Summer) semester shall be doubled to ensure that the course is completely taught in the semester with half the duration as compared to a regular (Fall or Spring) semester.

- e. (i). In accordance with the directive of the Government of Pakistan issued vide HEC Letter No. HEC/Curr/SR-533/2023/4520, teaching of the Holy Quran to Muslim Students will be completed during the course of each program.
- (ii). Those students will be exempted from the above condition who have already studied Holy Quran previously, subject to submission of any relevant certificate / diploma issued by Wifaq Ul Madaris Al Arabia, Pakistan / DAI.

5(b) Term System

- a. In the Term System, examination is conducted within six months. Thus, two term examinations are conducted in a year. Evaluation of the students is made on the basis of these two examinations.
- b. (i). In accordance with the directive of the Government of Pakistan issued vide HEC Letter No. HEC/Curr/SR-533/2023/4520, teaching of the Holy Quran to Muslim Students will be completed during the course of each program.
- (ii). Those students will be exempted from the above condition who have already studied Holy Quran previously, subject to submission of any relevant certificate / diploma issued by Wifaq Ul Madaris Al Arabia, Pakistan / DAI.

6. Withdrawal/Change of Course(s)

- a. When a course, for which a student has enrolled, cannot be offered according to the announced program, the student may take an alternative course. However, this shall be done no later than 15 days after the date of enrolment.
- b. A student, with the consent of the concerned Dean/ Head of Department/Director of Institute, may be allowed to:
 - (i) Change a course within 7 days of the commencement of a semester/ term, and
 - (ii) Drop a course within 5 weeks of the commencement of a regular semester/ term. No fee shall be paid when a dropped course is taken at a later stage.
- c. A student, with the consent of the concerned Dean/ Head of Department/Director of Institute, shall be allowed to withdraw from a course at the latest by the end of the 12th week of the commencement of a regular semester/ term. Withdrawn courses shall appear on the transcript with letter grade W. Students shall have to pay the requisite fee when taking a course from which they had withdrawn earlier.

7. Attendance

- a. A student at the Main Campus shall have attended at least 75% of the classes held in a course in order to be allowed to sit in the final examination. The student shall meet higher attendance requirement if the requirement established by the concerned council is greater than 75 %.
- b. A student having less than 75% attendance, but more than 60% attendance in a particular course and having made up the deficiency in consultation with the concerned teacher, may be allowed by the concerned Dean/ Head of Department/Director of Institute to take the final examination. This clause is not applicable if the attendance requirement established by the concerned council is greater than 75%.
- c. Students having class attendance less than 60% in a particular course shall be required to repeat the course when it is

offered again.

8(a) Examinations (Semester System)

- a. At the Campus, the examination papers for the midterm and final examinations shall usually be set by the subject teacher and submitted to the Head of Department / Director of Institute. The Head of Department / Director of Institute may decide to have the papers set externally. In any case, the Head of Department / Director of Institute shall check the paper for course coverage and appropriate depth and, when satisfied, forward the paper to the Controller of Examinations. Otherwise, the Head of Department / Director of Institute shall refer the paper back to the paper setter for revision.
- b. In each semester, a student's academic progress and standing shall be determined through quizzes, midterm and final examinations, presentations, assignments, and lab reports. These modes of evaluation shall have different weightages and shall contribute towards the overall assessment in percentage marks. The weightages shall be determined by the teacher concerned on the basis of the following guidelines:

Nature of Evaluation	Course with Lab	Theory Course	Lab
Quizzes	5 - 10 %	5 - 15%	-----
Midterm Examination	20 - 30%	30 - 40%	15 - 20%
Presentations and Assignments	5 - 10%	5 - 10%	-----
Lab Work	-----	-----	25 - 30%
Viva	-----	-----	15 - 20%
Report	-----	-----	0 - 10%
Final Examination	30 - 60 %	35 - 60 %	20 - 30 %

- c. In-semester evaluation will be based on quizzes, midterm examination, presentations and assignments, and lab work.
- d. In case a student joins a course after it has started, he/she shall be responsible for any missed lectures, quizzes, assignments, projects and lab work. The marks in the missed quizzes shall be zero, whereas assignments, projects, and lab work may be arranged in consultation with the concerned teacher/Head of Department / Director of Institute.
- e. No make-ups shall be arranged for the quizzes and midterm examinations.
- f. Make-up for the final examination in a course shall be arranged only if a student has been awarded letter grade I in that course.

8(b) Examinations (Term System)

At the campus, the examination paper for midterm and final examinations shall usually be set by the subject teacher and submitted to the Head of Department / Director of Institute. The Head of Department / Director of Institute may also decide to have the papers set externally. In any case, the Head of Department / Director of Institute shall check the paper for course coverage and appropriate depth and, when satisfied, forward the paper to the Controller of Examinations. The Head of Department / Director of Institute may refer the paper back to the paper setter for revision. In each term, students shall be required to appear in quizzes, written tests, final examination, and make presentations, participate in group discussions and submit assignments/lab reports by the set dates. These (to be determined by the teacher concerned) shall have different weightages and contribute towards the overall assessment in percent marks.

9(a) Grading Policy (Semester System)

- a. At the end of each semester, the students shall be awarded letter grades A, B+, B, C+, C, D+, D, or F based on the

percent marks earned in each course. Letter grades W (for withdrawal), I (for incomplete), S (for satisfactory), U (for unsatisfactory), V (for verified) shall not count towards GPA computation. The grade points corresponding to these grades are:

Percent Marks	Letter Grade	Grade Point	Remarks
85 - 100	A	4.00	Excellent
78 - 84	B+	3.50	Outstanding
70 - 77	B	3.00	Good
65 - 69	C+	2.50	Above Average
60 - 64	C	2.00	Average
55 - 59	D+	1.50	Below Average
50 - 54	D	1.00	Poor but Passing
< 50	F	0.00	Failing
-	I	-	Incomplete
-	W	-	Withdrawn
-	S	-	Satisfactory
-	U	-	Unsatisfactory
-	V	-	Verified

- The Dean/ Head of Department / Director of Institute of the concerned Faculty/ Department/ Institute may decide to use curving for the award of letter grades instead of using fixed percentages tabulated above.
- Seminars and field-work shall be graded Satisfactory (S) or Unsatisfactory (U) instead of letter grades carrying numerical values.
- Courses taken on Audit Basis shall show up on the transcript with letter grade V (for verified) and shall not contribute towards GPA computation.
- A student, who fails to complete a course for reasons beyond his/her control, may be granted letter grade I. In that case, if the student has secured passing marks in the in-semester evaluations, his/ her make-up final examination shall be conducted to enable him/ her to complete the course and earn a grade. In case, the student has not been able to appear or has failing marks in the in-semester evaluations and is not in shortage of attendance, he/ she shall have to take the course again. The letter grade I shall subsequently be replaced by the earned grade.
- Students receiving F grade in any course shall have to repeat the course whenever it is offered again. A student obtaining a D or D+ grade in a course may also repeat that course, if necessary, to improve his/her CGPA. In case of repeated courses, all grades earned by the student shall appear on the transcript; however, only the best grade shall be counted for computation of GPA.
- A student not allowed to appear in the final examination of a course due to shortage of attendance shall be deemed to have obtained zero marks in the final examination. The grade shall be awarded based on the student's sessional and midterm examination marks.

9(b) Grading Policy (Term System)

Grades	Percent Marks	Remarks
A+	80% Marks and above	Distinction
A	70% and above but below 80%	Excellent
B	60% and above but below 70%	Very Good
C	50% and above but below 60%	Good
D	45% and above but below 50%	Fair
E	Less than 45% to minimum	Satisfactory

10. Computation of Semester and Cumulative GPA

Semester and cumulative Grade Point Averages (GPAs) shall be calculated using the following relationships: The GPAs shall be on a scale of 4.00. The semester GPA shall have three digits after decimal (e.g., 2.835), whereas the cumulative GPA will have two digits after decimal (e.g., 2.84).

$$\text{GPA} = \frac{\text{Sum over Semester (Course Credit Hours x Grade Points Earned)}}{\text{Total Semester Credit Hours}}$$

$$\text{CGPA} = \frac{\text{Sum over all taken (Course Credit Hours x Grade Points Earned)}}{\text{Total Credit Hours Taken}}$$

10(a) Transcript (For Semester System)

Provisional transcripts shall be issued to all students free of charge within four weeks of declaration of semester result. Official transcripts shall be issued on the completion of the degree program or on request, provided the requisite fee is paid. Additional copies of the transcripts may also be obtained on the payment of the requisite fee. Mode of education, (i.e. On- campus/Distance/Sub campus) and place of study shall be mentioned on the transcript.

10(b) DMC (Detailed Marks Certificate) (For Term System)

Provisional DMC shall be issued to all students free of charge within four weeks of declaration of term results. Official DMC shall be issued on the completion of the degree program or on the payment of the requisite fee. Additional copies of the DMC may also be obtained on the payment of the requisite fee. Mode of education (i.e. On- campus/Distance/ Sub campus) and place of study shall be mentioned on the transcript.

11(a) Promotion Policy (For Semester System)

- Students who maintain minimum semester and cumulative GPAs of 2.00 shall be promoted to the next semester. Students of Pharm-D / BS Nursing program with CGPA 2.0 shall be promoted to the next professional year.
- A student who fails to maintain the above-mentioned GPA/ CGPA shall be promoted to the next semester on Probation, provided his/her semester and cumulative GPAs are not less than 1.50 (Not applicable for Pharm-D / BS Nursing students).
- A student scoring GPA less than 1.50, but more than 1.00, shall be promoted on Warning. If a student fails to achieve the required GPA/ CGPA after repetition of courses, he/she shall be removed from the University roll.
- A student scoring GPA less than 1.00 shall be declared Failed and shall be required to repeat the semester

- (essentially the courses in which he/ she has grades lower than C). The student may be allowed to take a few courses from those of the next semester. If a student fails to achieve the required GPA/ CGPA after repetition of courses, he/she shall be removed from the University roll.
- e. Students shall show satisfactory academics progress in order to remain in good standing. The following rules are meant to ensure that students get timely feedback on their academic progress:
- I. A student who obtains SGPA of less than 2.0 in any semester shall be issued written warning by the Head of Department / Director of Institute. A copy of the warning letter shall be also sent to the parents/guardian.
 - II.
